# INTERUNION FINANCIAL CORPORATION NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS FOR THE THREE MONTHS ENDED JUNE 30, 2001

- 1. Interim information is un-audited; however, in the opinion of management, all adjustments necessary for a fair statement of interim results have been included in accordance with Generally Accepted Accounting Principles. All adjustments are of a normal recurring nature unless specified in a separate note included in these Notes to Un-audited Consolidated Financial Statements. The results for interim periods are not necessarily indicative of results to be expected for the entire fiscal year. These financial statements and notes should be read in conjunction with the Company's annual consolidated financial statements and the notes thereto for the fiscal year ended March 31, 2001, included in its Form 10-KSB for the year ended March 31,2001.
- 2. Earning (loss) per share is computed using the weighted average number of common shares outstanding during the period.

#### CAPITAL STOCK AND ADDITIONAL PAID-IN-CAPITAL

In June 2000, the Company acquired its 243,750 Common Share at the rate of \$0.6153 per share in settlement of \$150,000 note receivable from an unrelated party.

In September 2000, the Company converted its Class "A" Preferred Shares into Common Shares at the rate of 1 to 10. Consequently, in lieu of 1,500,000 Class "A" Preferred Shares the Company issued 15,000,000 Common Shares from the treasury under regulation "S".

In November 2000, in a special meeting of the shareholders' of the company it was resolved to execute a reverse split in the issued and outstanding common stock of the Company in the ratio of ten (10) to one (1). Consequently the number of issued and outstanding common stock of the Company reduced to 1,899,937 in the 3rd quarter of fiscal 2001, ended December 31, 2000.

#### SALE OF ASSETS AND DISCONTINUATION OF OPERATIONS

During the second quarter of fiscal 2001 ending September 30, 2000, the Company sold its investment banking subsidiary, Credifinance Capital Corp. (CFCC). Effective September 30, 2000, Credifinance Capital Corp. is no longer part of the Company. As a result of the disposal of the operations of Credifinance Capital Corp. as of September 30, 2000, the Company reported a profit of \$358,169 from discontinuation of the operations.

However, as a result of disposal of discontinued assets of Credifinance Capital Corp., the Company incurred a loss of \$1,413,686. Effective September 30, 2000, the only investment asset on which InterUnion is reporting is its minority interest in InterUnion Asset Management Limited (IUAM).

The un-audited financial statements of IUAM for the 1st quarter of fiscal 2002 ending June 30, 01, are attached in their entirety as an attachment.

#### (2) NET REVENUES

For the first 3 months of fiscal 2001, InterUnion reported consolidated revenues of \$486 versus \$596,795 a year earlier, a decrease of \$596,309, resulting from the sale of its CFCC operations as of September 30, 2000.

# (3) EXPENSES

Selling, general and administration expenses for the three months of fiscal 2002 amounted to \$15,383 as compared to \$472,849 a year earlier, a decrease of 457,466, resulting from the sale of its CFCC operations as of September 30, 2000.

#### (4) NET INCOME FOR 3 MONTHS UNTIL JUNE 30, 2001

Net loss from operations for the 3 months ending June 30, 2001 was a loss of \$470,493 or \$0.241 per share, based on a weighted average number of shares of 1,948,687 versus a loss of \$51,855 or \$0.012per share, based on a weighted average number of shares of 4,232,290 a year earlier.

The weighted average number of common shares outstanding for the nine months ending June 30, 2001, is 1,948,687 versus 4,232,290 a year earlier.

#### (6) CONCLUDING REMARKS

There are no other known trends, events or uncertainties that may have, or are reasonably likely to have, a material impact on the Company's short-term or long-term liquidity that have not been discussed above.

In addition, there is no significant income or loss that has risen from the Company's continuing operations that has not been analyzed or discussed above. In addition, there has not been any material change in any line item that is presented on the financial statements that has not been discussed above.

#### (7) CERTAIN RISK FACTORS WHICH MAY IMPACT FUTURE OPERATIONS

The Company and its subsidiaries operate in a rapidly changing environment that involves a number of factors, some of which are beyond management's control, such as financial market trends and investors' appetite for new financings. It should also be emphasized that, should the Company not be successful in completing its own financing (either by debt or by the issuance of securities from treasury), its strategy to grow by acquisition will be affected.

In the opinion of management the financial statements for the periods ending June 30, 2001 accurately reflect the operations of the Company and its subsidiaries. The Company has taken every reasonable step to ensure itself that its quarterly financial statements do not represent a distorted picture to anyone having a business reason to review such statements and who has also reviewed its previous audited annual financial statements for the year ended March 31, 2001.

Forward-looking statements included in Management's Analysis and Discussion reflects management's best judgment based on known factors, and involves risks and uncertainties. Actual results could differ materially from those anticipated in these forward-looking statements. Forward-looking information is provided by InterUnion pursuant to the safe harbor established by recent securities legislation and should be evaluated in the context of these factors.

#### ITEM 1 -- LEGAL PROCEEDINGS

Credifinance Securities Limited, an ultimate wholly owned subsidiary of the Company until disposal on September 30,2000, had filed a claim against a client in 1997 for which it had raised a C\$15,000,000 convertible debenture, on the Superior Court of Montreal (Quebec). The claim was originally not contested. However, the Company faced a claim from two employees of Credifinance Securities Limited for commissions, termination allowance and damages. In compliance with a court order, the total amount of the commission, C373, 920 (US\$249,663) was placed in an escrow with Montreal Trust. On May 29, 2000, the Superior Court of Montreal (Quebec) rendered a judgment ordering Credifinance Securities Limited to pay C\$579,617 (US\$387,005) plus accrued interest to the cross claimants. The above amount has been fully provided by Credifinance Capital Corp (CFCC), the holding company of Credifinance Securities Limited in the consolidated financial statement of the CFCC for the quarter ended December 31, 2000.

Upon advice from its counsel who had advised that the May 29, 2000 judgment has a strong chance of reversal, Credifinance Securities filed an appeal in the Supreme Court in Quebec on June 29, 2000.

Effective September 30, 2000, as a result of disposition of Credifinance Capital Corp., the Company has no potential obligation to this lawsuit.

#### ITEM 2 -- CHANGES IN SECURITIES

In the 1st quarter ending June 30, 2000 the Company acquired its 243,750 Common Shares at the rate of \$0.6153 per share for \$150,000 in settlement of the note receivable of \$150,000 from an unrelated party. The above shares are held in treasury. Consequently, the number of outstanding Common Shares declined to 3,999,373 from 4,232,290 as of March 31, 2000.

In September 2000, the Company converted its Class "A" Preferred Shares into Common Shares at the rate of 1 to 10. Consequently, in lieu of 1,500,000 Class "A" Preferred Shares the Company issued 15,000,000 Common Shares from the treasury under regulation "S".

In November 2000, in a special meeting of the shareholders' of the company it was resolved to execute a reverse split in the issued and outstanding common stock of the Company in the ratio of ten (10) to one (1). Consequently the number of issued and outstanding common stock of the Company reduced to 1,899,937 in the 3rd quarter of fiscal 2001.

#### ITEM 3 -- DEFAULTS UPON SENIOR SECURITIES

There have been no defaults in the payment of principal or interest with respect to any senior indebtedness of InterUnion Financial Corporation.

ITEM 4 -- SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS

None

ITEM 5 -- OTHER INFORMATION

None.

#### INTERUNION ASSET MANAGEMENT LIMITED

Notes to Consolidated Financial Statements June 30, 2001 and June 30, 2000 (amounts expressed in Canadian dollars unless otherwise stated)

#### 1. NATURE OF BUSINESS

InterUnion Asset Management Limited, formerly Cluster Asset Management Limited, was incorporated on August 13, 1997 under the laws of Ontario. The principal business activities of InterUnion Asset Management Limited and its subsidiaries are discretionary and advisory portfolio management services for its clients and the acquisition of investment management firms.

------

#### 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

a) Principles of Consolidation These consolidated financial statements include the accounts of InterUnion Asset Management Limited and its subsidiaries. The principal operating subsidiaries are Black Investment Management Ltd., Glen Ardith-Frazer Corporation, Guardian Timing Services Inc., Leon Frazer & Associates Inc., P.J. Doherty & Associates Co. Ltd. and A.I.L. Investment Services Inc. (see note 3). Unless the context implies otherwise, the term "Company" collectively refers to InterUnion Asset Management Limited and all of its subsidiaries.

#### b) Marketable Securities

Marketable securities are valued at market and unrealized gains and losses are reflected in income.

# c) Management Contracts

Management contracts are recorded at cost less accumulated amortization and are amortized on a straight-line basis over a period of 7 years. The Company assesses the value of its management contracts by considering the future economic benefit associated with the revenue capacity of the related contracted items.

#### d) Capital Assets

Capital assets are recorded at cost less accumulated amortization. Amortization is provided on the following basis:

Computer equipment 30% declining balance
Furniture and fixtures 20% declining balance
Leasehold improvements over the term of lease on a
straight line basis

#### e) Goodwill

Goodwill being the excess of cost over assigned values of net assets acquired, is stated at cost less amortization. Amortization is provided on a straight-line basis over periods from 15 to 20 years. The value of goodwill is evaluated regularly by reviewing, among other items, the undiscounted cash flows relating to the returns of the related business, and by taking into account the risk associated with the investment. Any impairment in the value of the goodwill is written off against operations.

# f) Revenue Recognition

Revenue is recognized by the Company on an earned basis. For its services, the Company is entitled to an annual fee payable monthly or quarterly, depending on its agreement with the client. Fees are calculated based on the fair market value of the portfolio on each

valuation date. Fees billed in advance are recorded as deferred revenue and taken into income evenly over the term of the stated billing.

#### g) Financial Instruments

The Company's financial instruments consist of cash, bank indebtedness, marketable securities, accounts receivable, investments, accounts payable and accrued liabilities, other liabilities, preference shares and long term debt. It is management's opinion that the Company is not exposed to significant interest risks arising from these financial instruments. Unless otherwise noted, the fair value of these financial instruments approximates their carrying values.

6

#### INTERUNION ASSET MANAGEMENT LIMITED

Notes to Consolidated Financial Statements June 30, 2001 and June 30, 2000 (amounts expressed in Canadian dollars unless otherwise stated)

\_\_\_\_\_\_

The Company is exposed to credit risk on the accounts receivable from its customers. Management has adopted credit policies in an effort to minimize those risks. The Company does not have a significant exposure to any individual customer or counter-party.

#### h) Income Taxes

As recommended by The Canadian Institute of Chartered Accountants, effective April 1, 1999, the Corporation adopted the liability method of accounting for income taxes. Under this method, future tax assets and liabilities are recognized for temporary differences between the financial reporting and tax bases of assets and liabilities as well as for the benefit of losses available to be carried forward to future years for tax purposes that are likely to be realized.

#### i) Stock-Based Compensation Plan

The Company's stock-based compensation arrangements are described in Note 13. No compensation expense is recognized for these arrangements when stock options are issued to employees. Any consideration paid by employees on exercise of stock options is credited to share capital. If stock options are repurchased from employees, the excess of the consideration paid over the carrying amount of the stock option cancelled is charged to retained earnings.

#### j) Use of Estimates

The preparation of financial statements in accordance with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from management's best estimates as additional information becomes available in the future.

- ------

# 3. ACQUISITIONS AND DISPOSITIONS

The following are acquisitions made during the periods. These acquisitions were accounted for by the purchase method and consolidated from the respective effective date of acquisition, except where noted.

On March 31, 2001 the Company purchased an additional 3,201 shares in Leon Frazer & Associates Inc. from Black Investment Management Limited, thereby increasing the Company's direct ownership in Leon Frazer & Associates Inc. to 76.5%.

#### Fiscal 2001 Dispositions:

On September 29, 2000, the Company sold its share ownership in A.I.L. Investment Services Inc. (AILISI), a wholly owned subsidiary, for net cash proceeds of \$611,000. AILISI provided all management and administrative services for one mutual fund corporation. The primary asset of AILISI was a management contract with a net book value of \$350,000 on the date of sale (June 30, 2000 - \$375,000). Included in 'Other income' at March 31, 2001 is a net gain of \$197,000 resulting from this transaction

#### 4. MARKETABLE SECURITIES

Marketable securities are recorded at market values and comprise the following:

In the prior year, the Company recorded goodwill impairment charges of \$2,565,000 on its investments in Black Investment Management Ltd. and Guardian Timing Services Inc. Impairment resulted from significant client departures and the disposition of several product offerings. In the case of Black Investment Management Ltd., the amount of impairment was based on the estimated net realizable cash value while for Guardian Timing Services Inc., the amount of impairment was based on estimated undiscounted future cash flows.

## 8. DEFERRED INDUCEMENTS

Deferred inducements comprise the following:

<TABLE> <CAPTION>

June 30, 2001 March 31, 2001

</TABLE>

A controlled company's lease at its Toronto premises provides for rent-free periods and periods of significantly reduced rent. In order to properly reflect these rental inducements over the term of the lease, the total lease payments have been aggregated and allocated over the term of the lease on a straight-line basis. This treatment of rental inducements has given rise to deferred rent inducements which will be applied to income over the term of the lease.

The controlled company has sub-let certain of its leased premises for the term of the lease. Included in deferred inducements are expenses associated with the sub-lease arrangement which have been deferred and will be amortized over the remaining life of the sub-lease.

#### 9. RELATED PARTY TRANSACTIONS

Transactions with shareholders, officers and directors of the Company influenced by the aforementioned parties are considered related party transactions.

Summary of the related party transactions affecting the accounts are as follows:

#### 11. PREFERENCE SHARES

3,500 Cumulative Redeemable Convertible Class A Preference Shares (with a value equal to \$1,000 per share) were issued on November 19, 1999 as consideration for the acquisition of P.J. Doherty & Associates Co. Ltd. These Class A Preference Shares are redeemable at the option of either the holders (commencing November 19, 2002, subject to certain provisions for early redemption arising from non-payment of dividends and an Initial Public Offering of the Common Shares of the Company prior to November 19, 2002) or the Company (commencing November 19, 2001) at \$1,000 per share. In the instance that the Class A Preference Shares are redeemed by the Company, the holders are entitled to a cash premium of 2.5% per annum, calculated from the original issue date together with all dividends accruing thereon whether or not declared. At any time after issuance, each Class A Preference Share is convertible to 80.61 Common Shares (see note 13) at a conversion price of \$12.7538 per Common Share (subject to certain provisions with respect to the issuance of additional Common Shares). Holders of these Class A Preference Shares are entitled to quarterly cumulative cash dividends of: i.) 2.50% per annum until the third anniversary of the original issue date; and ii.) 5.00% per annum, thereafter. Holders of these Class A Preference Shares are also entitled to an additional dividend of 2.50% per annum accruing until and payable on the earlier of: i.) the third anniversary of the original issue date; ii.) the date on which Common Shares are delivered to the holder pursuant to a conversion of Class A Preference Shares; and iii.) the redemption of such Class A Preference Shares. As these Class A Preference Shares are redeemable at the option of the holders, the value of these shares have been classified as long-term debt on the balance sheet. These Class A Preference Shares are collateralized by a pledge by the Company of 4,000,000 common shares in the capital of P.J. Doherty & Associates Co. Ltd. valued at \$4,000,000.

\_\_\_\_\_

## 12. SHARE CAPITAL

The authorized share capital of the Company consists of an unlimited number of Common Shares and an unlimited number of Class A and Class B Preference Shares, issuable in series (note 12).

Details of issued share capital are as follows:

<TABLE> <CAPTION>

<S>

March 31, 2000

</TABLE>

The demand bank loan is guaranteed by two of a subsidiary company's shareholders.

During a prior fiscal period, the Board of Directors of the Company approved the granting of options to employees to purchase up to 136,300 common shares of the Company which may be granted from time to time. Various vesting requirements are associated with each employee grant.

Subsequently, as a result of the issuance of common shares relating to the warrant referred to above, in the prior fiscal year, additional stock options were issued and the preferred share conversion ratio was adjusted to maintain the proportionate holdings of the option holders and preferred shareholders as required under the terms of the financial instruments.

Subsequently, the net change to the valuation allowance during the period, and the total valuation allowance as at June 30, 2001 provided by the Company, decreased by \$76,000 and totaled \$1,080,000 (March 31, 2001 - \$1,156,000) to reduce the future income tax asset, reflecting the uncertainty of full realization of the future income tax asset.

#### 14. LOSS PER SHARE

common shares outstanding during the period.

The calculations of fully diluted earnings per share is based upon the common shares outstanding during the period as above and not adjusted by the unexercised convertible Class A Preference shares and vested options in computing diluted loss per share because their effects were antidilutive.

In accordance with revised recommendations of The Canadian Institute of Chartered Accountants, the company adopted on a retroactive basis the accounting standards for calculating Earnings Per Share. Accordingly, prior period basic earnings per share has been restated to account for the effect of the outstanding warrants issued which were contingent upon certain conditions which had been satisfied at March 8, 1999. The basic loss per share reported in the prior year has been decreased by \$0.01 per share.

# 16. RECONCILIATION OF CANADIAN AND UNITED STATES GENERALLY ACCEPTED ACCOUNTING PRINCIPLES

The consolidated financial statements of the Company are prepared in accordance with accounting principles generally accepted in Canada ("Canadian GAAP"). Material differences at June 30 between Canadian GAAP and accounting principles generally accepted in the United States ("U.S. GAAP") are described below:

#### a) Statements of Operations:

The application of U.S. GAAP would have the following effect on net loss for the quarter and loss per common share as reported:

<TABLE> <CAPTION> 3 months ended 3 months ended June 30, 2001 June 30, 2000 \_\_\_\_\_ <S> <C> <C> Net loss for the period, Canadian GAAP \$(305,657) \$(578,590) Stock based compensation (i) (17,235)Net loss for the period, U.S. GAAP \$(305,657) \$(595,825) Loss per common share under U.S. GAAP \$ (0.19) \$ (0.37) </TABLE>

#### (i) Stock-Based Compensation Expense

The Company does not recognize compensation expense for stock options granted. Under U.S. GAAP, Accounting Principles Board ("APB") Opinion No. 25 requires that stock based compensation cost be recorded using the intrinsic-value method. FASB Statement of Financial Accounting Standard ("SFAS") No. 123 encourages the Company to record compensation expense using the fair-value method. In reconciling Canadian GAAP with U.S. GAAP, the Company has chosen to measure compensation costs related to stock options in accordance with APB 25.

Under APB 25 the intrinsic-value of vested options would have been \$0 (2000 - \$0). The intrinsic-value of unvested options is estimated to be \$0 (2000 - \$177,000 with a vesting period of two years). Therefore, total compensation cost for the period under APB 25 would have been \$(0) (2000 - \$17,235). Had the Company booked compensation expense in accordance with APB 25, basic loss per share would have been increased by \$0.00 (2000 - \$0.01).

# b) Other Disclosures:

# i) Comprehensive Income

FASB SFAS No. 130 introduced the concept of Comprehensive Income. Under this pronouncement, U.S. GAAP requires companies to report Comprehensive Income as a measure of overall performance. Comprehensive Income includes net income and all other changes in equity, exclusive of shareholders' contributions or any distributions to shareholders. The application of FASB SFAS No. 130 would not have a material effect on net loss for the period and loss per common share as reported under U.S. GAAP.

INTERUNION ASSET MANAGEMENT LIMITED Notes to Consolidated Financial Statements June 30, 2001 and June 30, 2000 (amounts expressed in Canadian dollars unless otherwise stated)

(amounts expressed in Canadian donars unless otherwise stated)

# 17. SUBSEQUENT EVENT

As at July 20, 2001 the Company sold all of its 53.2% share ownership interest in Black Investment Management Limited for cash proceeds of \$146,250. Subject to certain terms regarding revenue levels of Black Investment Management over the next three years, the Company may receive additional proceeds. As these proceeds are contingent upon the outcome of future events, no amount will be recorded in the current year financial statements. The Company will record a consolidated gain of \$22,000.

------

#### 18. COMPARATIVE CONSOLIDATED FINANCIAL STATEMENTS

Certain comparative figures have been restated to conform with the current period's presentation.
